SCI SLOVENIA**

Call for **ESC Volunteer**

Assistant in primary school of Osnovna šola Majde Vrhovnik
From September 2025 to June 2026
In Centre of Ljubljana, Slovenia

Co-funded by
the European Union

About the project

Your role will be to take part in the activities prepared by the teachers and mentors. Your main focus will be on keeping the students company. We invite you to bring your knowledge and areas of strength to the process.

During the lessons, you can participate in all classes and engage in the learning process. Here are activities that you can do:

Join in play and teaching-through-play activities with younger pupils,

Get involved in sports games, music and art activities in the classroom with older pupils,

Introduce your homeland as part of the geography and history lessons,

Help the students improve their speaking and social skills by conversing with them during the foreign language lessons in English or German,

Keep the pupils company, as a chaperone, in all out-of-school planned activities (e.g.sports days, bicycle exams),

Join a variety of after-school activities with us and play chess, sports, build with clay, hike, make music, create art, read and more,

Create your own interest group activity with a mentor,

Help younger pupils after lunch with their homework and encourage them to read and play with them.

Volunteer Profile

Enjoy working with children and youth,

Is creative and have a variety of ideas on how to support children in their activities,

Is ready to help in a constructive way to resolve an argument between children.

Volunteer Role

Learn, explore and experience the unknown with joy,

Explore their creativity by showing your own happiness and delight in creating,

Embrace the diversity and be constructive thinker in resolving arguments.

We expect the presence of the young volunteer will encourage the children and adolescents to be more motivated for their school work and learning, perhaps to approach a conflict more easily through conversation, to be motivated to socialise more in person and use their free time creatively, resulting in less reaching for digital technology.
